The New ICS Health Home
Call to see if you are eligible!
Health Home Care Management Services

A “Health Home” is not a place to live. It is a group of people who work together to make sure you get what you need to be as healthy as possible. The ICS Health Home staff will:

- Work with you to make sure you are healthy by doing regular nursing assessments.
- Coordinate all of your health care services, including working with your primary care doctor, your specialists, and home care providers.
- Serve as your advocate to get the right wheelchair or scooter and keep it running.
- Assist you to set goals and make a plan to get and stay healthy.
- Provide you with information on the resources in your community you need to be as independent as possible.
- Help you to stay out of the hospital and if you are hospitalized, support you to get back home and healthy as quickly as possible.

About joining the ICS Health Home

If you have two or more chronic conditions and need help coordinating the care and services you need to stay as healthy and independent as possible, call ICS Member Services at 1.877.ICS.2525 and ask to speak with someone about our new Health Home. An experienced ICS staff person will answer your questions, check your eligibility and, if you are eligible, will help you enroll.

As a member, you will continue to have an ICS care manager who understands your needs and who will continue connecting you to the services that are important to you. These include:

- Doctors and specialists who understand your condition or disability.
- Activities that help you stay independent and engaged in life.
- Public benefits such as maintaining your Medicaid or applying for Food Stamps (SNAP).

ICS Health Home services are covered by New York State’s Medicaid program at no cost to eligible individuals. As a current ICS member, you are more than likely eligible to join our new Health Home.

At ICS, we know there’s no one-size-fits-all when it comes to managing your health.
